Concerning the Microsoft Suit:

My View for the DOJ:

-- If it "aint broken don't fix it". Leave Microsoft and other companies alone. You destroy any vestige of American entrepreneurial spirit. The US is about to become a second class industrial nation in the World and you will make us a fourth class with your decisions.

-- Stay out of making decision on high-technology. You are clueless.

-FOCUS on criminals, drug dealers and murderers. You have botched so much of these events up from Wako to Ruby Ridge you need to get these situations fixed correctly. Stay with the fundamentals.

That's one register voter's view who pays the bill for your past misdirection with Microsoft.
